Ortus Solutions
A Software Revolution

SUPPORT PLANS

Become a Member of Our Family!

Our Support Plans offers you a variety of support and maintenance plans that will meet your business requirements and cover ALL of the Ortus Solutions products. We can assist you with sanity checks, architecture, design, code analysis, mentoring, professional support for all our Ortus products and much more!

Whether you are planning, deploying, developing, enhancing or maintaining we are here to help you speed up your project and get things done with the best practice insight. The experienced team of developers that created ColdBox HMVC Platform, CommandBox CLI and ContentBox CMS will assist you directly.

Scaled for the needs and size of your business, support plans cover:

- Analysis of Requirements
- Application Performance
- Software Architecture
- Security Audit
- Custom Builds & Patches
- Infrastructure evaluation
- Integrations
- Continuous Integration and Continuous Delivery
- Custom Development
- Legacy Application Migration Strategy and Implementation
- Box Product Support
- Product Upgrade Support
