CFSummit 2019 Training Bootcamps

Luis Majano

May 30, 2019

We are excited to bring our training Bootcamp series as a SET of **post-conference** workshops for this years **Adobe ColdFusion Summit 2019** in Las Vegas, NV. **Please note, that our training this year is AFTER the conference.**

We have two great workshops to select from and they will be held in our same venu as last year, the [Hyatt Placel](#). [Register as soon as possible](#) as space is very limited!

[REGISTER TODAY!](#)

ColdBox From Zero to Hero

In this workshop you will be introduced to the latest version of the most popular CFML MVC framework; ColdBox 5. We will go over the basics of installation, templating and configuration to the most advanced features like HMVC development with modules, RESTful APIs, interception points and much more.

Pre-Requisites

- Beginner to Intermediate ColdBox knowledge
- CommandBox CLI Installed
- MySQL 5.7 or Docker Desktop
- Make sure your computer has more than 6GB of RAM and at least an i5 processor

Instructors

- Gavin Pickin (ContentBox Evangelist)
 - Eric Peterson (QB, Quick Creator and Module Extraordinaire)
-

ColdBox From Hero to SuperHero : API Edition

This workshop is the continuation of the zero to hero workshop. In this session we will be building a headless CMS API based on ColdBox best practices, database migrations, database seeding, BDD, JWT token authentication, fluent queries via QB and object resources.

Pre-Requisites

- Beginner to Intermediate ColdBox knowledge
- CommandBox CLI Installed
- Docker Desktop
- Make sure your computer has more than 6GB of RAM and at least an i5

processor

Instructors

- Luis Majano (Creator of ColdBox)
- Brad Wood (ColdBox Evangelist)
